Experience

2007 – PRESENT | REMOTE & ONSITE

Web Designer, Developer, Presentation Designer / Brian-Dean.com

Building, updating & maintaining websites as well as (interactive) multimedia content. All items in the 'working knowledge' section of this site have been involved in this vast array of work I've done for architects, localization companies, artists, restaurants and web design/development companies on a contract basis.

2018 – 2020 | COEUR D'ALENE, ID

Front End Web Developer / Hagadone Media & Creative

In this position with a branch of the Hagadone Corporation I built out websites for a vast variety of clients from Hawaii to here in the PNW / INW. Mainly WordPress websites using the Beaver Builder or WPBakery themes & builders, sometimes working with PHP & jQuery. As well as Bash command line & Plesk for each website I worked on. Laid off in March 2020 due to the COVID-19 economic downturn.

2015 – 2016 | PORTLAND, OR

Webmaster & CRM Specialist / Maids by Trade

I was hired in this temporary position for 2 roles: A) To boost this company's website's performance (for loading time metrics & SEO performance), as well as redesigning the site according to the CEO's preferences. I worked with WordPress, HTML, CSS, JavaScript/jQuery, tons of WP plugins and all sorts of SEO tools and reports. B) To experiment with and extend the capabilities of this company's Zoho CRM system, with a whole suite of tools. Some of which extended into the company's website.

Education

1996 – 2000

BA, Animation / Evergreen State College

Animation studies, video editing, web design, writing, current world affairs, environmental sciences.

2010 – 2011

Certificate of Completion / Interface College Spokane

Completed web design in CSS, XHTML, JavaScript, Photoshop, Dreamweaver. Certified in MS Office applications: PowerPoint 2007, Excel 2007, Word 2007.
